# What people are saying...

My name is Ted Silverberg, My resume includes Student of life, President of the MLMIA and President and owner of BIOMETICS Intl Inc.

My Passion and purpose in life is to facilitate people to experience Happier, Healthier, more fulfilling lives. Several years ago Michael Bernoff and I met at a Personal growth function for a group of Biometrics people. Michaels ability to connect with, inspire and motivate people to perform at their best is incredible! I have enjoyed the hundreds of "motivational speakers" I have met and worked with in my life. Quite honestly NONE were more effective than Michael Bernoff. I don't hesitate to share with you, that if you want to see MASSIVE improvement in personal growth and success, put people in front of Michael.

I know I will for years to come.

I want to take time to thank you for helping to push me toward completing the goal of writing my first book. It has now been published and the press release goes out today! In appreciation I am sending copies of my book to both of you, so be on the look out. When I participated in your tele-seminars on the phone and in person (Core Strength Experience Phoenix, 4/2010) your radical training styles forced me to take a look at myself and begin to focus on what I really wanted to do.

Thanks, again.

"I started on the path of personal development with Michael Bernoff about 3 years ago. I am a totally different person. My confidence has increased as a physician, speaker, presenter and networker. I have learned and implemented effective ways to better communicate with my patients, family members, my husband and to enhance business relationships. It truly has transformed my life on so many levels. On a business level, I was scared to open my own practice and was standing in my own way. I realized after a call with Michael, that when I stepped out of my comfort zone, I would be one step closer to what I truly desired in my life. Since then, I have opened my own medical practice and just celebrated my one year anniversary at my new location. My income has doubled in the last 2 months and I am looking to double it again very shortly. It all came down to making a decision to better myself. I am consistently more consistent in pushing myself to grow and teach it to my patients and my own children. It is an amazing investment that I will cherish forever. It was the best gift I gave myself and everyone I come in contact with benefits."
